

Introducing Mark Scown

Whilst new to the insurance industry and after 30 years as a school principal, I bring to the advisory role, an extensive range of skills, not least of which is a passion for engaging with people from all walks of life. As a Broker, we are able to source the best insurance package for our clients from a wide range of providers that is best tailored to meet their needs.

I feel privileged to have been invited to join the ARK Financial group. This group provides a personalised and quality service, ensuring the interests of clients come first and I believe it is a company built on a foundation of integrity, trust and professionalism. I am pleased to have the opportunity to become part of the team.

What do we offer?

I have been authorised to provide you with financial services of the following categories.

Life Insurance - helps you to provide financial security for your loved ones when they die.

Trauma / Disability Protection - helps you to cope financially in the event of a major illness or injury by reducing stress and letting you get on with your recovery.

Income Protection - gives you additional financial security by providing you with replacement monthly income when sickness or illness prevents you from working and earning an income for yourself.

Mortgage Protection - is similar to income protection, but not off-set by any on-going income such as ACC.

Medical Insurance - gives you the security of knowing you have protection and options available should you experience health issues.

Business and General - Let us tailor a package that covers your general insurance for assets, fire & contents and theft, based on your individual personal and business requirements.

My Own Testimonial

At a personal level, it was just 9 years ago that my wife Kym and I first had our broker review our existing insurance covers. Both of us found that many of our existing policies were quite dated and lacked enhancements that so many new policies have for the same price. At that time we additionally took out Trauma cover which we have forever been eternally grateful for, because just 14 months after that I had a heart attack resulting in three weeks off work. This triggered a full payout of my Trauma cover; money that helped secure our house purchase in Rangiora.

How Can I Help You?

Whether you have existing insurance covers or not; it is important to review these if your circumstances have changed in regard to income levels, premiums increasing, home ownership or employment changes in recent years.

I would love to give you the opportunity to sit down with me to review your current insurance portfolio. This would be a total obligation free consultation to reach a solution that best meets your current and future needs.

I would welcome any inquiries. Contact me:
